You want to administer or accompany the Konsensierung.

I want to add this Konsensierung to my list of Konsensierungen.

This keeps the konsensieren linked to your account for easy access

I want to receive my personal access link via mail. You'll have access to this Konsensierung with it any time.

Enter e-mail address

I want to participate without e-mail address and memorize the public link.

- Security**
- Deadlines
- Finished

How do you want to invite the participants?

I will invite the participants with the secure methods of this application (recommended)

I will invite differently..
 In this case you must adapt the security settings.
 (This is especially the case with public Konsensierungen!)

Selecting this option allows for easier ways to invite people

Security settings

- Access only by personal invitation from this application via a private link (highest security)
- A public link can be used **Participation by URL**
- All participants can invite further participants
- Only the presenter can invite participants.
- Every participant has to give his E-mail address. **Require participants to provide email**
- Participants can also participate without an E-mail address.
- Every participant has to save his own data (password or personal link)
- No security prescribed. Simplest operation, least security. This only makes sense when there is mutual trust among participants.

Deadlines

Suggestions

from 03/09/16 19:55 to 03/12/16 23:59 /duration 3 days

Allow at least three, full days (72+ hours) for proposal forming. Recommended ending at 23:59 for simplicity

Ratings

from 03/12/16 23:59 to 03/15/16 23:59 /duration 3 days

Start voting after proposal forming has ended. Also allow at least three full days (72+ hours)

Result

The acceptance should be visible even before the end of the rating period ?

Leave this option unchecked to prevent voting influence

Please edit the zero solution

Zero solution: The current situation

Rate

still 4989 of 5000 characters left

Description

If you cannot clarify what this is, you should describe the zero option as 'not defined' or something similar.

Every decision in a Konsensierung is an active decision by the group - also the decision to leave the situation to its own devices.

The purpose of the zero solution is to make this clear. To formulate the zero solution, please ask yourself the question: "What happens if we don't make a decision?" Please adapt the title accordingly. "We decide that everything should stay as it is" or "We decide that there won't be a joint celebration" would be examples.
