

## Logo

There are two versions of the logo, one with solid color and the other which is faded. Always use the faded one unless there are visibility issues or the style of the logo doesn't match the content.

Please do not modify the logo or use them in a confusing way, or in a way that confuses yunity with another brand - including your own. Specifically, do not customize or add text. The allowed colors are exclusively black and white in the variant you find in this document

## Typography

[Download Harabara font](#)

To combine with the yunity logo, and for some marketing material

[Download Gotham font](#)

For the blog, the website and our communication

[Download Lato font](#)

The official font of the platform

## Important!

When using the yunity logo with other logos and graphic elements, maintain a safety space that equals 200% the size of the square around the logo.

## Colors theme

for website, communication and marketing material

Orange
